

# Sunset Junior High School

---

Community Council Minutes for February 25, 2021

---

## Agenda Items

---

- **Teacher Student Success Plan 2021-22**  
(formerly known as School Improvement Plan)

The committee again looked over the TSSP, with a couple amendments that have been made. The committee unanimously voted to approve the plan and budget for next year. We will sign the document electronically.

- **Miscellaneous items of discussion**

1. It was mentioned that the school will, by requirement, be moving to **standards-based grading** in approximately 2 years. The school is actively working toward that goal.
2. “**Lunch ‘n’ Learn**” is a new program being introduced to the school. This is a supervised gathering place for students available each lunch hour, with the opportunity for retesting or extra learning help, as needed.
3. As a matter of **information regarding the pandemic**, about 30 students have – with the start of the new semester – re-enrolled at Sunset (returned from Davis Connect online learning). The committee asked how student learning is going since Fridays were eliminated as an in-person learning day. School staff gave the assessment that teaching and learning at Sunset have continued at a surprisingly satisfactory level, even with one less day each week. However, Principal Jackman said that an eventual return to 5-day school is something he would welcome, for the sake of students who clearly benefit from more time at school.

Next Meeting: April 22, 2021 @ 4:00 pm
